Forecast For West Midlands
Issued by Met Office Exeter
at 1600 on Wednesday 10 Nov 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Drizzly rain dying away but fog forming in places overnight.

This Evening and Tonight:
Some patchy drizzle or light rain this evening, but most areas becoming drier overnight. Remaining largely cloudy but occasional clearer spells are possible. Mist and fog becoming more widespread overnight with some locally very poor visibility developing. Remaining mostly mild. Minimum temperature 6 deg C (43 deg F).

Thursday:
A largely cloudy day with mist and fog taking a while to lift through the morning. Most places remaining dry with the odd brighter period, although isolated showers are possible. Maximum temperature 13 deg C (55 deg F).

Outlook for Friday to Sunday:
Changeable and breezy on Friday with rain or showers. Largely dry and cloudy over the weekend, with some sunshine possible in places. Staying fairly mild.
